

## Manager of Information Technology

A regulatory agency established by the provincial government in 1958, the Real Estate Council of BC (RECBC) transitioned to a Crown agency in 2018. As a public-sector organization, RECBC continues to be responsible for licensing, licensee and public education, investigation of licensee conduct and licensee discipline. As co-regulators, both the Superintendent and RECBC have the mandate to ensure consumer protection in relation to the conduct and integrity of real estate licensees, through their separate but related functions under the *Real Estate Services Act*.

RECBC recognizes the rapid pace of technological change and the need to adapt business-critical systems to provide effective and efficient services. Responding to these changes will require ongoing innovation, collaboration, and systems thinking. As part of the team leading this exciting organization change, RECBC is now seeking a **Manager of Information Technology**.

Reporting to the Director, Corporate Services, the Manager of Information Technology will plan, coordinate, direct and manage all activities related to the Information Technology environment for RECBC.

The hallmarks of this role will be ensuring alignment of systems integrity with the business objectives of the organization and working closely with stakeholders, senior and executive leadership, vendors and end-users to identify, recommend, develop, test, implement, troubleshoot, evaluate and analyze cost-effective technology solutions for all aspects of the organization.

This includes managing the installation, configuration and maintenance of hardware (e.g., desktop computers, servers, storage, etc.), software, network; carrying out a wide variety of maintenance, upgrades and management activities to ensure system privacy, security and regulatory compliance through best practices.

The ideal candidate is an experienced IT professional who thrives in an open-minded, progressive-thinking, and fast-paced environment, to deliver enabling technology within a regulatory framework. You champion modernization and are accustomed to leading a team.
